

Mind Control Cover-up

The Secrets of Mind Control

This mind control summary is based on astonishing excerpts from three landmark books: *Bluebird* by Colin Ross, MD; *Mind Controllers* by Armen Victorian; and *A Nation Betrayed* by Carol Rutz. The authors provide hundreds of footnotes to support their thorough research. Their revealing information is derived largely from 18,000 pages of declassified CIA mind control documents. The Secret Agenda of Mind Control

Please note: the letters and numbers after each paragraph denote the book and page number from which the information was taken. BB—*Bluebird* MC—*Mind Controllers* NB—*A Nation Betrayed*.

A declassified CIA document dated 7 Jan 1953 [1] describes the creation of multiple personality in 19-year old girls. "These subjects have clearly demonstrated that they can pass from a fully awake state to a deep H [hypnotic] controlled state ... by telephone, by receiving written matter, or by the use of code, signal, or words and that control of those hypnotized can be passed from one individual to another without great difficulty. It has also been shown by experimentation with these girls that they can act as unwilling couriers for information purposes." BB 32

Under the provisions of the National Security Act of 1947, the CIA was established. One of the main areas investigated by the CIA was mind control. The program was motivated by Soviet, Chinese, and North Korean use of mind control techniques. The CIA originated its first program in 1950 under the name BLUEBIRD. MKULTRA officially began in 1953. In 1973, tipped off about forthcoming investigations, CIA Director Richard Helms ordered the destruction of any MKULTRA records. [2] MC 3, 10, 17

The Senate Intelligence Committee did find some records during its investigation in 1976. Senator Frank Church, who led the congressional investigations of the CIA's unlawful actions, said that the agency was "a rogue elephant" operating above the law as it plotted assassinations, illegally spied on thousands of Americans, and even drugged citizens in its effort to develop new weapons for its covert arsenal. [3] In 1977, through a Freedom of Information Act request, 16,000 pages of mind control documents were found as part of the Agency's financial history. That is how this information has been pieced together. MC 5, 18, NB xvi, 38

The CIA Mind Control Projects

A CIA document dated 10 Feb 1954 [4] describes an experiment on the creation of unsuspecting assassins: "Miss [deleted] was then instructed (having expressed a fear of firearms) that she would use every method at her disposal to awaken Miss [deleted] (now in a deep hypnotic sleep) and failing this, she would pick up a pistol and fire it at Miss [deleted]. She was instructed that she would not hesitate to "kill." Miss [deleted] carried out these suggestions including firing the (unloaded) gun at [deleted]. After proper suggestions were made, both were awakened. Miss [deleted] expressed absolute denial that the foregoing sequence had happened." BB 36, 37

MKULTRA grew into a mammoth undertaking. The nature of the research included these specific problems:

- Can we create by post-H (hypnotic) control an action contrary to an individual's basic moral principles?
- Can we "alter" a person's personality? Can we guarantee total amnesia under any and all conditions?
- Could we seize a subject and in the space of an hour by post-H control have him crash an airplane?

- Can we devise a system for making unwilling subjects into willing agents and then transfer that control to untrained agency agents in the field by use of codes or identifying signs? NB 13, 14, 28 [5]

In a 1971 *Science Digest* article [6], Dr. G.H. Estabrooks states, "By the 1920's clinical hypnotists learned to split certain individuals into multiple personalities like Jeckyl-Hydes. During WWII, I worked this technique with a Marine lieutenant I'll call Jones. I split his personality into Jones A and Jones B. Jones A, once a 'normal' Marine, became entirely different. He talked communist doctrine and meant it. He was welcomed enthusiastically by communist cells, and was deliberately given a dishonorable discharge. Jones B was the deeper personality, knew all the thoughts of Jones A, and was 'imprinted' to say nothing during conscious phases. All I had to do was hypnotize him, get in touch with Jones B, and I had a pipeline straight into the Communist camp." BB 167-169 [For more on CIA mind control projects, [click here](#).]

Dr. Jose Delgado, a neurosurgeon and Yale professor, [7][8][9] received funding for brain electrode research on children and adults. In the 1950s, he developed a miniature electrode placed within an individual's cranium capable of receiving and transmitting electronic signals. Delgado was able to control the movements of his subjects by pushing buttons on a remote transmitter. He demonstrated by wiring a fully-grown bull. With the device in place, Delgado stepped into the ring with the bull. The animal charged towards the experimenter – and then suddenly stopped, just before it reached him. The powerful beast had been stopped with the simple action of pushing a button on a small box held in Delgado's hand. [10] MC 147, BB 88

The Mind Control Doctors

In the second half of the 20th century, mind control projects resulted in extensive political abuse of psychiatry. Many thousands were subjected to unethical mind control experiments by leading psychiatrists and medical schools. Mind control experimentation was not only tolerated by medical professionals, but published in psychiatric and medical journals. Dr. William Sweet participated in both brain electrode implant experiments and the injection of uranium into medical patients at Harvard University. [11][12] Army doctors were involved in LSD testing at least until the late 1970's. Subjects of LSD experiments included children as young as five years old, and brain electrodes were implanted in children as young as 11 years of age. BB, pg. K, 1, 21

Linda MacDonald was a victim of Dr. Ewen Cameron's [13][14][15][16] destructive mind control experiments in 1963. Dr. Cameron was president of the American and World Psychiatric Associations. He used a "treatment" which involved intensive application of these brainwashing techniques; drug disinhibition, prolonged sleep, and prolonged psychological isolation. These were combined with ECT [Electro Convulsive Therapy]. [17][18] [19] The amount of electricity introduced into Linda's brain exceeded by 76.5 times the maximum amount recommended. Dr. Cameron's technique resulted in permanent and complete amnesia. A class action suit against the CIA for Dr. Cameron's MKULTRA experiments was settled out of court for \$750,000, divided among eight plaintiffs in 1988. 26 July 1963, Memorandum For: Director of Central Intelligence [20] From: CIA Inspector General

The concepts involved in manipulating behavior are found by many people both within and outside the Agency [CIA] to be distasteful and unethical. Nevertheless, there have been major accomplishments both in research and operational employment. Over the ten-year life of the program many additional avenues to the control of human behavior have been designated under the MKULTRA charter, including radiation, electro-shock, and harassment substances. Some activities raise questions of legality. A final phase of the testing places the rights and interests of US citizens in jeopardy.

Technical Services Division initiated a program for covert testing of materials on unwitting US citizens in 1955. TSD has pursued a philosophy of minimum documentation in keeping with the high sensitivity of the projects. Some files contained little or no data at all. There are just two individuals in TSD who have full knowledge of the MKULTRA program. NB 108-113
